scan for the video tutorial!

1. Check if you have all the parts.

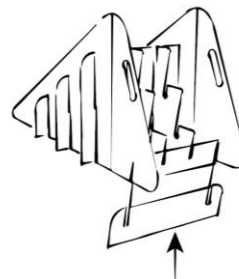

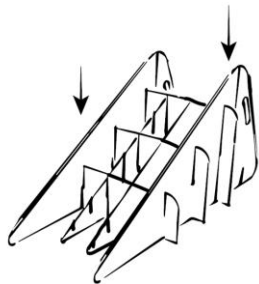

2. Slide B, C & D into H as shown in the image above.

Attention: important step!

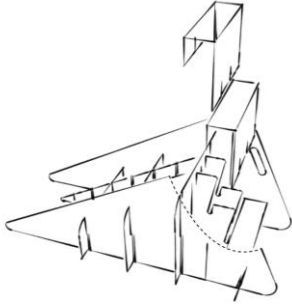

3. Press the strip between the cutting lines in side walls H. Do this by hand, this is important for the next step.

4. Now fold the edges **towards you** to make sure there are no sharp edges.

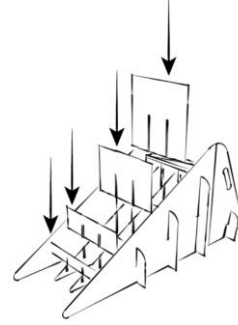

5. Slide part A into the slits of parts B, C & D. Make sure that the fold is on the inside.

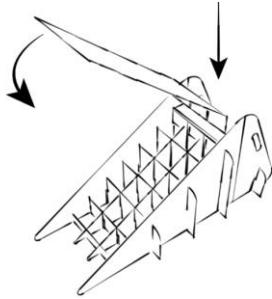

6. Slide step F into the slits of H, as shown in the image.

7. Slide stair step E into the sloths in H. Start with the middle one.

8. Slide cross parts I, J, K & L into the sloths of the inner side walls H.

9. Place slide G in the sloths of the top steps and fold over the sliding compartment.
